Few have time to look up your family tree, and those who have mostly won't do it anyway.

All-Stars Show Great Form in Daily Practice

A great improvement was shown in the workout by the "All-Star" team yesterday, the team going through its stuff like a real machine.

The shifting of Mosley to left guard and Dancy and Bogue to tackle has strengthened the line, which was very weak in the Stetson game. Emmet Greene was also showing up good in the backfield.

A former University of Georgia star who is now residing in Palatka will appear in the lineup in one of the halfback positions and his work is very encouraging. At present his name is not to be divulged, but he is a dark "red" horse for St. Augustine to worry over.

McDonald will act as referee and L. W. Barstow as head linesman, while the Saints will bring over an umpire to look out for offside, etc. Don't forget the time, 10 a. m., Armistice day.

Chats With Your Gas Man

If you are using defective gas tubing, discard it. Do not mend it. It is criminal carelessness to try to keep in use gas tubing that will permit even an infinitesimal amount of gas to escape, by patching it with tire tape, putty, soap, bread dough, as has been shown upon investigation to have been done in many instances.

Worn-out gas tubing should be replaced by purchasing only the best grade of tubing. It may cost a few cents more, but it is worth it.

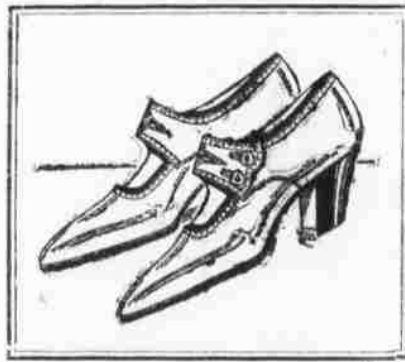

Ask for and insist upon having only the highest grade for such tubing is absolutely odorless and will last longer than the inferior articles which are sold for a cent or two less per foot than the superior make.
